

RASG Inventory Management System (IMS)

In today's competitive market place organizations cannot afford to carry excessive levels of inventory. At the same time customer services which embraces the right product at the place and at right time is progressively more important. Accordingly, an organization has two conflicting goals with inventory: **minimize the money tied up in stock** and **not to be out of stock when it receives an order or demanded**. An integrated approach to inventory is thus necessary to effectively balance the need to keep inventory low while maintaining the higher service levels.

RASG IMS is an efficient multi-user desktop solution designed to ensure most responsive and economical support to the organizations seeking efficiency in managing their inventory.

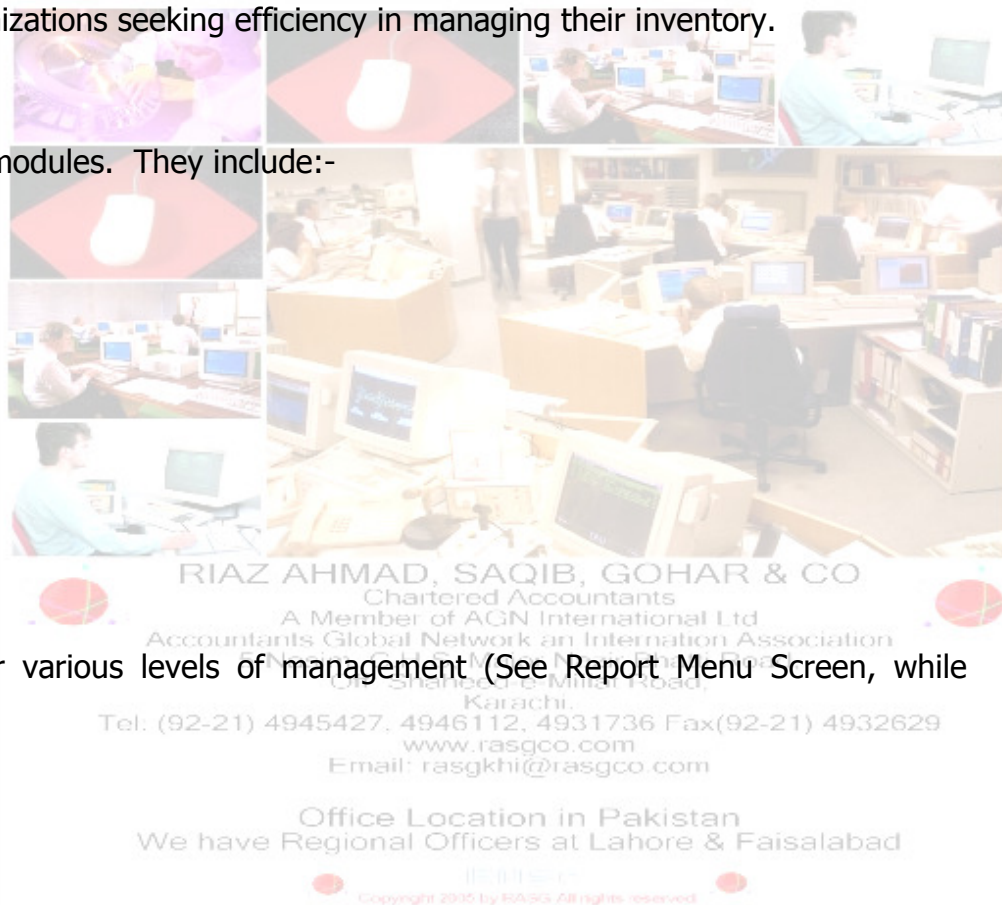

General Ledger Modules

The IMS is divided into several modules. They include:-

- Item Profiling
- Item Requisition
- Stock Receiving
- Stock Issuing
- Stock Returns
- Stock Transfer
- Physical Stock taking
- Stock Damage Note
- Stock Expiry Note
- Stock Adjustment
- User Security Management
- Comprehensive reports for various levels of management (See Report Menu Screen, while touring the System)

Major Benefits:

- Reduction in inventory investment
- Reduction in procurement cycle time
- Improvement in demand- satisfaction rate
- Improvement in stock visibility
- Improvement in accuracy of inventory records
- It is open and flexible, supporting multiple applications and databases
- Reduces the number of errors that occur in manual processing
- Capable of automated accounting entries in the General Ledger and takes sufficient load from the Accounts Department
- Provides comprehensive reporting for better decision making

- Maintains tight operating and auditing controls
